A DESCRIPTION OF PARK
Centred on the old stud complex and positioned to allow the retention of existing trees and hedges the proposed Airlie Park is 11 hectares and is one of the main parkland areas proposed within the SDZ.

The park will contain a mix of active and passive areas and will also incorporate the existing Tober stream within a wildlife area. It will adjoin both main circulation routes and housing areas and appropriate links to surrounding areas will be detailed.

In addition to providing an open green space, it is proposed to create sports, play and amenity areas.
