

#BACK IN 5 PARKING CAMPAIGN!!!

Have you ever parked your car in an accessible car space provided for people with disabilities using I'll be back in 5 as an excuse?

If you have once or regularly parked in these spaces you do not realise that you are consequently taking other people's independence from them.

Accessible parking spaces are designed to allow the person access to and from the vehicle and local amenities. Imagine if you didn't have the access to get in and out of your car? ***Think*** for a moment what impact that would have on your daily lifestyle?

Arriving on time for work, dropping the kids to school...

The campaign is designed to educate those who have ever or may ever consider parking in disability-accessible spaces to have some integrity. It could be your daughter, son, mother, father or grandmother who may need to genuinely use the space. Perhaps even be yourself someday.

Think before you park!!!

For further information on local services the Irish wheelchair Association provides please contact IWA Lucan Resource and Outreach service on 01 6302414 or www.iwa.ie . This campaign has been supported by South Dublin County Council, An Garda Síochána and Lucan Disability Action Group.
